

PEROLIN LAYS DUST, PREVENTS DISEASE

New Preparation Makes
Sweeping a Pleasure.

HOSPITALS USING IT

Since Introduction to Public Two Years
Ago It Has Steadily Grown in
Popularity.

Introduced into the United States only two years ago, and since then adopted by about 455 institutions for general use, Perolin, a composition made to lay dust and kill germs, has made a wonderful record.

Perolin was introduced in this country at the St. Louis fair, since which time it has been used by factories, large stores and some hospitals. It is as efficacious in cleaning carpets and rugs as it is when applied to wood floors. For the treatment of bare floors it has been proven far superior to such dust-laying substitutes as dampened sawdust.

If it is placed on a hard wood floor before sweeping, the wood will have a new, polished effect. Carpets treated in like manner will look freshened and renovated.

Good Germicide.

But there is a greater advantage to Perolin than this. It has been demonstrated by German scientists that it does away with the danger of infectious diseases. It kills germs without fail. The statement was made some time ago that if Perolin had been used on the floors in New Orleans during the terrible yellow fever epidemic the ravages of that disease would have been immeasurably lessened.

An additional advantage in the use of Perolin is that it leaves in the air a pleasant, invigorating odor. It is produced by a secret treatment of pine needles. In Germany, where it was discovered, it is now considered indispensable in all sanatoriums and hospitals. Germans consider it a promoter of health, for it is well known that pine needles are wholesome.

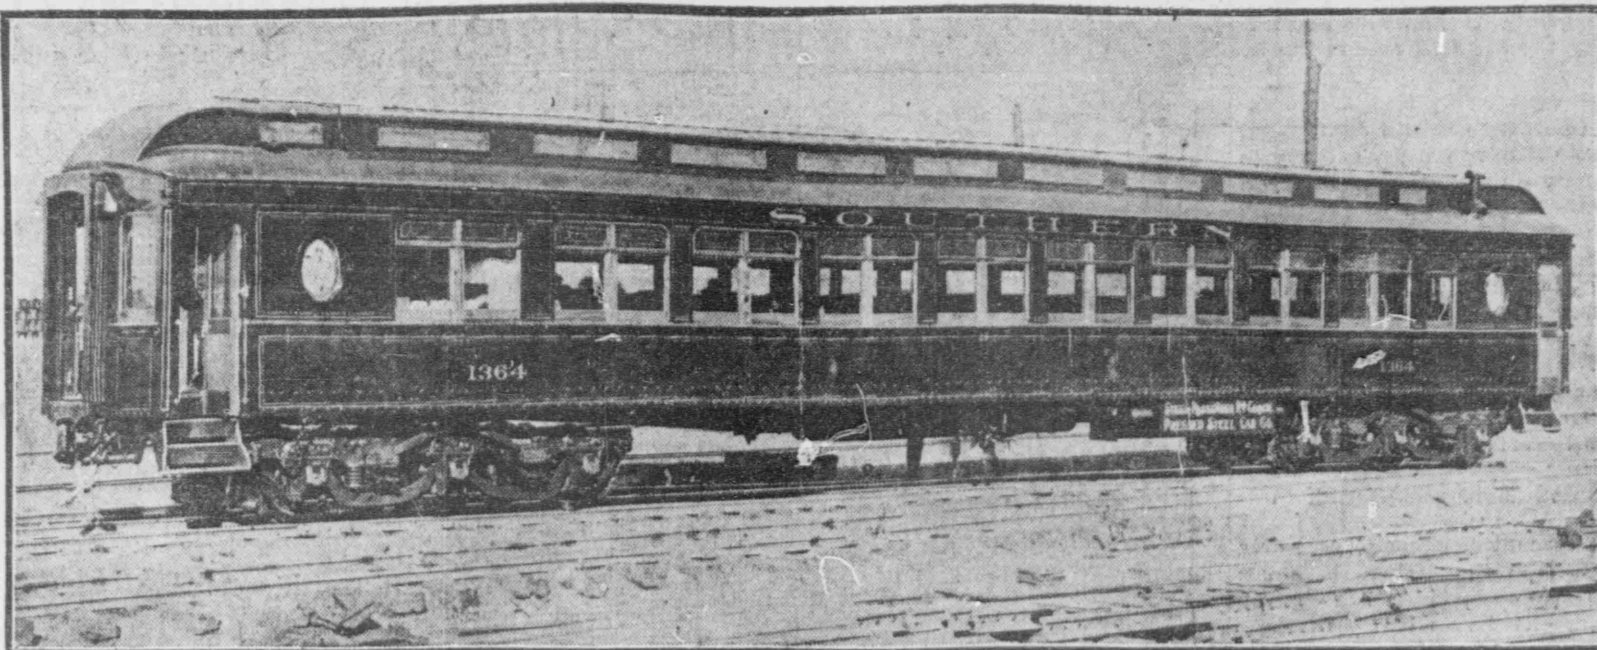

The R. P. Andrews Paper Company has been appointed the sole distributing agent for this German discovery in this city and its neighborhood. Warning has been given that people should keep a sharp lookout for imitations of Perolin, as it has been demonstrated that no imitation of any account has ever been put on the market.

As final proof of what Perolin has accomplished and of its popularity the following letters from a few of its friends are given:

"Best Ever Used."

Highland Park, Ill., May 2, '06.
The Perolin Company of America,
1791 South Clark street.
Gentlemen: Please send via Am. or Johnson's Ex. P. F. 100 Drum Perolin.

New Railroad Car Built Entirely of Steel

Calculated to Resist Any Possible Damage in Wrecks.

A car built entirely of steel and calculated to resist damage in wrecks and to save the lives of passengers in any

emergency has been put into commission by the Southern Railway. It will be a part of the New York and Florida Limited, which runs between New York and Jacksonville, Fla. Two other similar cars are being constructed for the Southern by the Pressed Steel Car Company, of Pittsburgh, Pa.

This car, which is an innovation in steam railroading, is seventy-four feet and six inches long over all and weighs 110,000 pounds. So strong is it that it has

been said that a train composed of cars of its kind could not be demolished in any railroad wreck.

Wood enters into its composition only in the interior, where wood is used in small quantities for decorative purposes. But even this wood has been so treated as to make it fireproof.

Consequently, the Southern Railway prides itself on having gotten out a car that is as near fireproof and wreck-proof as any car can possibly be built.

If the three cars which have been ordered prove satisfactory there seems little doubt that this type will soon become the standard for safe, comfortable transportation of passengers.

These wonders of strength and endurance were built by the Pittsburgh company under the personal supervision of Mechanical Superintendent A. Stewart and Consulting Mechanical Engineer R. L. Ettinger, of the Southern Railway. It is said that this type of car will be found economical for the railroad company, owing to their durability.

STOLE VALUED GARBAGE; OWNER MAD ABOUT IT

COLUMBUS, Ohio, July 14.—There isn't anything entirely valueless. All sorts of articles have been reported stolen in the city of Columbus during the past few years, but the limit was reached Wednesday night when L. Colter, proprietor of a restaurant at 17-19 West Long street, made a vigorous complaint to the police because some one had stolen all the garbage out of the garbage can.

Most people of the city have been kicking to the board of public service because their garbage is not removed. In this case the garbage was valuable. Mr. Colter has a contract for its sale and if the thief is located and caught he will be charged with larceny. Garbage makes good pig food, and it is believed that some one with an eye to business has gathered up this restaurant offal and sold it to a farmer.

CHANGES IN MARINE HOSPITAL SERVICE

The list of changes of station and duties of commissioned and non-commissioned officers of the Public Health and Marine Hospital Service for the seven days ending July 11, 1906, is announced as follows:

H. W. Sawtelle, surgeon, granted leave of absence for two months, from July 5, 1906.

M. J. Rosenau, passed assistant surgeon, granted leave of absence for three days from July 8, 1906.

H. A. Stensfield, passed assistant surgeon, granted leave of absence for one day, July 4, 1906.

J. W. Schereschewsky, passed assistant surgeon, granted leave of absence for two days from June 28, 1906.

N. Roberts, assistant surgeon, relieved from duty at Fort Stanton, N. H., and directed to report at the bureau, Washington, D. C., for temporary duty in the hygienic laboratory.

F. C. Smith, assistant surgeon, granted leave of absence for seven days.

E. F. McConnell, acting assistant surgeon, assigned to duty at Banes, Cuba.

J. C. Rodman, acting assistant surgeon, granted leave of absence for ten days from June 27, 1906.

P. E. Smyth, acting assistant surgeon, granted leave of absence for five days, from July 3, 1906.

A. F. Stuart, acting assistant surgeon, granted leave of absence for twenty-one days from July 9, 1906.

T. D. Walker, acting assistant surgeon, leave of absence granted for eight days, from June 8, 1906, amended to read six days, from June 5, 1906.

R. H. Gibson, pharmacist, granted leave of absence for four days.

F. L. Brown, pharmacist, relieved from duty at Pittsburgh, Pa., and directed to proceed to Baltimore, Md., reporting to the medical officer in command for duty and assignment to quarters.

M. McKay, pharmacist, relieved from duty at Washington, D. C., and directed to proceed to Savannah, Ga., via Cincinnati, Ohio, reporting to the medical officer for duty.

SPAN AT K STREET TO GO UP IN FALL

New Bridge Will Supplant
Famous Old Iron
Structure.

WILL COST FULLY \$40,000

Old One Was Built Shortly After
the Civil War—Used as
a Model.

One of the notable municipal improvements to be undertaken this year will be the construction of the new steel span bridge over Rock creek at K street to supplant the old one at that point for the past thirty-seven years.

Plans for the new structure, which when completed will mark the passing of the oldest iron span bridge in the District, and one of the oldest of its kind in the country, are being prepared by W. J. Douglass, District Engineer of Bridges, and the actual construction work on the bridge will be started early next fall.

The structure will require an expenditure of approximately \$40,000, which was one of the items carried in this year's District appropriation bill. The new bridge is to be of the plate-girder span construction, and will be modern in every particular.

The old K street bridge was built in 1869. At that period, because of its iron construction and advanced type, it evoked much commendation from bridge builders in all parts of the country, and it was used as a model by many of them.

RED MEN GATHER AROUND CAMP FIRE

The conferring of the adoption degree by Sioux Tribe, No. 18, Improved Order of Red Men, was the occasion of a large gathering at their "sleep" around the camp fire, at 930 Pennsylvania avenue last Tuesday evening. Among the visitors present were Past Great Sachem William H. King, Past Sachem Brinston, of Trenton, N. J.; Past Sachem Harvey, of White Eagle Tribe, who took part in the degree work, and others.

Officers for the ensuing term are: Sachem, F. L. Snow; junior sagamore, H. M. Wagner; junior sagamore, H. J. Russell; prophet, A. Brem; guard of wigwam, John Dickerson; guard of forest, B. F. Chisman; first sannah, A. Nicholas; second sannah, H. Lowenberg; first warrior, E. B. Beavers; second warrior, W. Wise; first brave, Thomas J. Cox; second brave, R. M. Bouts; third brave, J. J. Hopper; fourth brave, J. Embrey.

IDLE 2 YEARS BY CHOICE, MOONEY'S REST IS OVER

"He hasn't hit a lick of work for two years," said a policeman to Judge Mulloony in the Police Court yesterday while testifying against William Mooney, charged with vagrancy.

"That's a pretty long rest," said the judge. "If William doesn't get some exercise soon his joints will get rusty. How often has he been here?"

"More times than you have fingers and toes," replied the clerk.

"I think \$40 or five months would just catch William right," said the court, and Mooney stepped back into the dock.

HAINES' CO-WORKERS' FIRST HALF HOLIDAY

The co-workers of "Haines' Fifty Stores in One" enjoyed their first weekly half-holiday yesterday by going in a body to Luna Park.

About sixty in number they started at 3:30 p. m., with flying banners and smiling faces.

An abundant luncheon was served under the trees in the picnic grounds. The remainder of the evening was spent in the amusements of the park. Returning at a late hour, co-workers and friends voted their first half-holiday a delightful success.

CAPTAIN MILLS INSTRUCTOR AT V. M. I., HIS ALMA MATER

LEXINGTON, Va., July 14.—The War Department has detailed Capt. M. M. Mills, of the artillery arm of the United States Army, to be military instructor at the Virginia Military Institute here.

The term of service is for three years. Captain Mills is a graduate of the Virginia Military Institute of the class of 1897 and was first captain during his graduating year.

BENNING J. O. U. A. M. ELECT THEIR OFFICERS

Benning Council, No. 21, Junior O. U. A. M., elected its officers for the ensuing term, last Monday evening. They are as follows: Junior past counselor, A. B. Hardisty; counselor, E. H. Brown; vice counselor, A. A. Straus; treasurer, N. Keyser; recording secretary, A. B. Gray; financial secretary, William Kidwell; warden, George Peacock; conductor, J. Hardisty; S. S., C. Gray; O. S., J. Kirby; chaplain, E. Faunce.

TAILOR LEAVES HOSPITAL, ALLEGED ASSAILANT HELD

Max Harrison, the tailor, who has occupied a ward at the Emergency Hospital suffering from stab wounds inflicted, it is alleged, by a fellow-workman, Max Gerber, during an altercation, was dismissed from the hospital yesterday, and went to his house at 90 R street northwest. Gerber is being held in \$1,000 bond pending the action of the grand jury.

NO MORE DUST

We wish to announce that we have appointed THE PEROLIN COMPANY OF AMERICA, CHICAGO, ILL., our sole agents in the U. S. A., with the exclusive right to manufacture under our patents and formula the original and only perfect dustless sweeping powder, known as

"PEROLIN"

The Destroyer of Dust

It is the only compound that will effectively settle, confine, and absorb the dust raised when sweeping—clean, brighten, and preserve carpets, rugs, and floorings—save the curtains, pictures, tapestries, furniture, and other exposed finery from being soiled by dust—kill disease-carrying germs found in dust and purify the air.

It is especially invaluable to department, dry goods, clothing, general merchandise, gent's furnishings, furniture, jewelry, and other stores having goods exposed to dust, because it protects the goods against damage by dust.

It is indispensable to universities, theaters, schools, libraries, hotels, hospitals, churches, and all places of assembly indoors, as a protection against infectious dust diseases.

THE PEROLIN COMPANY, DORTMUND (Germany)
G. & W. LAMBECK, Proprietors

WARNING
Beware
of Imitations

WARNING
Beware
of Imitations

With reference to the foregoing, we wish to state that we have given this German invention, "PEROLIN," a most careful trial, and after having been fully convinced as to its efficiency as a dust-allaying powder and disinfectant, we have accepted the representation for the city of Washington of this German sweeping compound, and do hereby guarantee that these statements of facts are absolutely and unqualifiedly true. Call us up or write us to send our demonstrator to show you the wonderful powers of PEROLIN.
